

WATERPROOF PROTECTOR

MATTRESS

WATERPROOF & HYPER BREATHABLE

FITTED SHEET STYLE

These protectors are made like a fitted sheet. They have a waterproof top, and cotton sides with a full elastic around the bottom. The fabric of the mattress protector will not allow dust mites or allergens through, but it is not an encasement to keep dust mites out of your mattress. For more dust mite protection choose the Complete which is also waterproof, or the Allergy which is very breathable.

FABRIC MADE IN SPAIN

This breathable fabric has outer layers made of organic 100% cotton knitted jersey with a Neotherm® center. Neotherm® is a proprietary polyurethane that is both waterproof and yet highly breathable. European fabrics are superior because of advanced technology, regulations for non-toxic processes and good working conditions.

SIZE

These protectors are made oversized to allow for a perfect fit after shrinkage. They must be laundered before using in order to fit properly. We recommend measuring your mattress depth, as your protector will be more effective when it fits correctly.

LAUNDERING

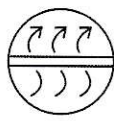

Machine wash warm. Do not bleach. Tumble dry on low to medium. Never dry hot. Do not dry clean. Do not iron.

GUARANTEE

Guaranteed for one year against any defect in material or workmanship, providing the laundering instructions have been followed.
